

International Atlantic Residency Exchange Artlink Residency Guidelines and Application Form

For Visual Artists living and/or working in Newfoundland & Labrador interested in traveling to Ireland

Location: Artlink, Fort Dunree, Donegal, Ireland

Duration: 4 weeks

Dates: April - November 2023

Deadline: 28th February 2023

Artlink are offering an opportunities for a Visual Artist to take part in a **paid artist residency** at Fort Dunree, Donegal, Ireland, in 2023. Applications are open to professional visual artists working in any discipline.

About Artlink

Artlink is a thriving artist-led visual arts organisation, formed in 1992, based at Fort Dunree, Inishowen, County Donegal. It exists to support the ambitions of local, national and international artists at all stages of their professional career. Artlink makes a valuable contribution towards the creative development and wellbeing of the local community and helps build a strong sustainable culture and economy in the region. This is achieved through a programme of regional, national and international exchanges and residencies, solo exhibitions by local artists, practical creative workshops and participatory community events. In an area packed with ancient history and breathtaking scenery, Artlink connects and inspires people to produce creative projects uniquely rooted in 'place' and inspired by this rural, coastal context.

At Artlink we want to nurture and reflect upon a new rhythm; a new way of working, a new routine, which :

- is informed by the Celtic Agrarian Calendar to reconnect us with natural rhythms , the seasons, the tides, the place where we are
- acknowledges our unique position as a frontier and our relationship with the border on this island as we witness the transition through Brexit, we reconsider how we define ourselves and are defined by our edges
- is informed by the learned, seasonal practices of Artlink's international partners in Newfoundland, Iceland and Norway
- embraces the importance of planning times of inactivity as well as activity
- listens to the natural rhythms; slowing down and reflecting more before moving on
- questions Artlink's programmes; asking, does this programme really help us to nurture artists or just tie people down in activity for activity's sake?
- values and appreciates creative processes and indeterminacy

The ideal artist for this residency will be exploring or have a practice centred on the rhythm of the seasons in relation to the land.

Residencies

Artists in residence must be available for **four weeks** between **April to November 2023**. Throughout Artlink's programme in 2023 our aim is to make art in the area more visible and more physically accessible to enhance the cultural experience of local people and visitors, and to complement the exceptional natural features and rich resources of the site.

The artist residencies are open to professional Visual Artists working in any discipline including but not limited to: sculpture, photography, painting, installation, and video. We are specifically looking to work with artists working with the natural environment in relation to the seasons. Collaborations are welcome, please provide statements for each individual within the collaboration.

Resident artists are expected to actively create within the studio space for at least 20 hours a week and be willing to hold open studio hours with the public for a minimum of one day a week. During the residency artists are expected to develop new work or new ideas based on the unique site, and engage with local artists and Artlink members. Public engagement could be through presenting artist talks, workshops, demonstrations or other events.

Fees

Artists will be paid a **residency fee of €6500** for undertaking the residency. The residency fee covers all flights, accommodation, transport, materials, living expenses and artist's fee. The selected artists are responsible for arranging their own accommodation and travel arrangements and managing their budget as appropriate.

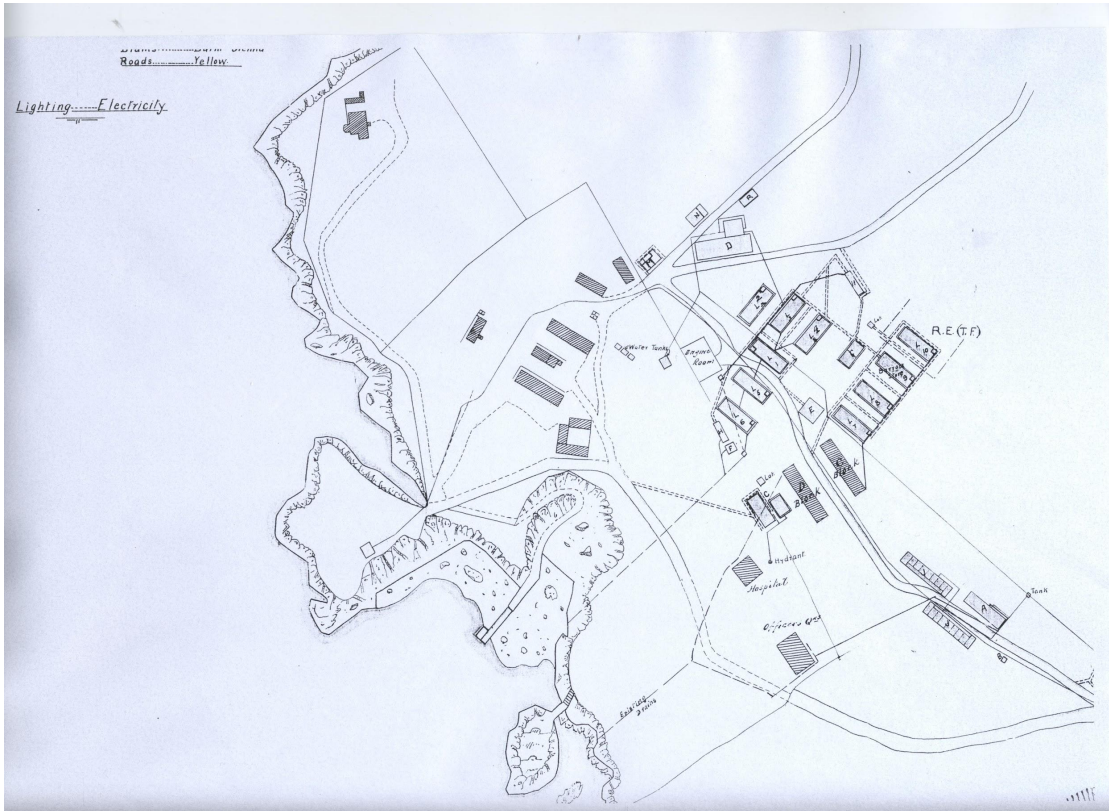

Resources

Artlink will offer time, space and professional support for work, reflection, research and experimentation.
